# Cameleon

## ● Pupitre de conférence :

- **CAMELEON** is a modern stylish and versatile lectern which was especially designed for religious and institutional meetings, business political or conferences.

The optional Xpresso mechanical and electronical part allows to amplify Cameleon and to equip it with a battery, CD or Digital Player as well as with wireless receivers and transmitters. Cameleon is tough enough for indoor and outdoor applications.

Rosewood  
or White  
in option.

## VIGI RACK Version.
